

RBWR

Rotary Book of World Records

Detailed Feature Review

Site reviewed: rbwr.nexcorealliance.com

Prepared by Claude

1. Overview

RBWR (Rotary Book of World Records) is positioned as "The Global Record Verification Ecosystem" -- a platform where individuals, Rotary clubs and districts, companies, and schools can propose, attempt, and have world records officially verified, certified, and publicly showcased. It extends beyond Rotary's own membership to corporations, educational institutions, and independent record-breakers, while using Rotary's service heritage as its credibility foundation.

Status note: multiple pages on the live site explicitly self-identify as an "interactive prototype for presentation purposes," stating no persistent data storage and no external data transmission (e.g. the Leaderboards, Create-a-Record, and About pages). Treat the features below as the DESIGNED/DEMONSTRATED feature set, not confirmed production-grade, backend-driven functionality.

Target audience

- Rotary clubs and districts seeking to set official records
- Companies / corporate teams (CSR, wellness challenges)
- Schools and educational institutions
- Individual participants and community organizations
- Aspiring adjudicators (official record verifiers)

Primary top-level navigation

- Explore Records
- Break a Record
- Create a Record
- Sign In
- Live Attempts
- Leaderboards
- Adjudicators

2. Homepage

Layout, top to bottom:

Header

Logo, Explore Records nav, Sign In button.

Hero

Tagline "The Global Record Verification Ecosystem"; subtitle "Where Extraordinary Achievements Become Permanent Records"; a record search bar; dual CTAs to Break a Record / Create a Record.

Statistics dashboard

Four animated/counter metrics: Verified Records, Countries represented, Certified Adjudicators, Participants.

Featured Records carousel

Six highlighted achievements, each with a photo, category label (World / Community / Corporate Record, etc.), title, holder organisation, location, and a View Record link.

Live & Upcoming Attempts

Three attempts shown chronologically with date, location, and assigned adjudicator; link to the full Live Attempts page.

Record Type Directory

All 10 record categories listed with per-category counts and links (see Section 4).

Six-Step Process strip

Visual summary of the verification journey (expanded in the full 16-step Platform Flow, Section 9).

Global Leaderboard preview

Top entries across Individuals / Clubs / Cities / Countries, with a link to the full Leaderboards page.

Adjudicator recruitment banner

CTA promoting certification, citing the "1,250+ certified adjudicators" network.

Footer

Three link columns -- Discover, Participate, Ecosystem -- plus a branding statement and copyright line.

3. Full Site Map

Every distinct route identified during this review, grouped by function.

Core pages

/	Homepage
/records	Explore Records (browse/search all records)
/break-a-record	Break-a-Record application flow
/create-a-record	Propose a new record category
/sign-in	Authentication
/live-attempts	Live & upcoming attempt tracker
/leaderboards	Global rankings
/record-battles	Head-to-head record challenges
/record-wall	Public wall/showcase of records
/passport	Record Passport (personal achievement profile)
/certificates	Certificate viewing/issuance
/awards	RBWR Awards
/adjudicators	Adjudicator directory/hub
/adjudicators/apply	Adjudicator application form
/platform-flow	16-step process explainer
/presentation	Presentation Mode (for ceremonies/demos)
/about	About RBWR
/contact	Contact

Record category filters (/records?group=...)

- World
- Rotary
- Club
- District
- City
- Rotarian
- Battle
- Community
- Corporate
- Educational

Individual record / attempt pages (examples found)

/records/RBWR-IND-MH-MUM-2026-00427	Largest Human Formation of a Rotary Wheel
/records/RBWR-USA-NY-NYC-2025-00110	Largest Gathering of Community Volunteers
/records/RBWR-AUS-NSW-SYD-2025-00125	Largest Simultaneous Beach Clean-Up
/records/RBWR-KEN-NBO-NBO-2025-00101	Largest Tree-Planting Attempt
/records/RBWR-BRA-SP-SAO-2025-00117	Largest Corporate Wellness Step Challenge
/records/RBWR-IND-KA-BLR-2025-00119	Largest Human Formation of a Peace Dove
/adjudicator/attempts/att-04	Longest Continuous Wheelchair Basketball Marathon (live)

Record IDs follow a structured code: RBWR-[country]-[state/region]-[city]-[year]-[sequence], e.g. RBWR-IND-MH-MUM-2026-00427 -- suggesting a formal registry/numbering system by design.

4. Feature: Explore Records

Path: /records -- the main browse/search catalog of every record on the platform.

Per-record card fields

- Record title (links to the full record page)
- Thumbnail image
- Category label (World / Community / Educational / Corporate / Rotary / Club / District / Rotarian / Battle Record)
- Status badge: Verified, Pending Verification, Broken, or Historical
- Record holder (organisation or individual name)
- Geographic location (country, sometimes region)
- "View Record" link

Other features

- "Advanced Filters" control (present in the UI)
- Result count shown ("20 records found" at time of review, implying pagination/limits)
- Category browsing across all 10 record families
- "Sign In" and a secondary "More" menu in the header

5. Feature: Break a Record

Path: /break-a-record -- lets a user challenge an existing record.

Record selection

16 featured records are offered for challenge at time of review, spanning community service (beach cleanups, tree planting, blood donation drives), individual achievement (marathon counts), and innovation (youth coding marathons, robotics workshops).

5-step submission flow

- Step 1: Record Selection - choose which record to pursue
- Step 2: Applicant Information - personal details
- Step 3: Attempt Details - describe the planned challenge
- Step 4: Review - verify submitted information
- Step 5: Submit - finalize the application

6. Feature: Create a Record

Path: /create-a-record -- lets a user propose an entirely new record category.

6-step proposal flow

- Step 1: Record Concept - proposed title, description, uniqueness rationale
- Step 2: Category - classification assignment
- Step 3: Measurement Method - how the record will be quantified
- Step 4: Evidence Requirements - documentation needed to prove the attempt
- Step 5: Safety - safety considerations for the attempt
- Step 6: Submission - final filing of the proposal

The system includes validation against existing records, to prevent duplicate categories.

7. Feature: Live Attempts

Path: /live-attempts -- real-time-styled tracker of record attempts in progress or scheduled.

Per-attempt fields

- Status label: Live Now, Upcoming, or Completed
- Date of the event
- Record title
- Location (venue and geography)
- Assigned adjudicator's name
- Link to a detailed attempt page

Structure at time of review

- Live Now -- 1 active attempt
- Upcoming -- 2 scheduled events
- Recently Completed -- 6 past records

Example entry: "Longest Continuous Wheelchair Basketball Marathon", scheduled Sep 3, 2026 at Copper Box Arena, London, adjudicated by Liam O'Connor. No search, sorting, or advanced filtering was observed on this page.

8. Feature: Leaderboards

Path: /leaderboards -- global ranking system.

Ranking tabs

- Individuals
- Clubs
- Districts
- Cities
- Countries
- Categories

Columns per entry

- Rank (numeric position)
- Name (entity identifier)
- Verified Records (count of confirmed achievements)
- Points (scoring metric)

Sample data at time of review: Charlotte Hughes (UK) and Emma Richardson (US), each with 1 verified record and 100 points. No time-period selector or sort control was observed.

9. Feature: Platform Flow (full lifecycle)

Path: /platform-flow -- the definitive, most detailed explanation of how a record moves through the system end to end. This is the fullest picture of the intended process.

- 1. Public Website - entry point for users
- 2. Records Exploration - browse the existing database
- 3. Application Submission - user applies to break a record
- 4. RBWR Review - internal team evaluates the application
- 5. Guidelines Issuance - specific rules provided for the attempt
- 6. Attempt Scheduling - official date/time established
- 7. Adjudicator Assignment - a qualified official is designated to oversee the attempt
- 8. Live Attempt - the record-breaking activity occurs under supervision
- 9. Evidence Collection - documentation gathered into a "vault" system
- 10. Adjudication Report - official assessment prepared by the adjudicator
- 11. Verification Process - additional review of the findings
- 12. Outcome Paths - result is either verified, or routed to appeals
- 13. Appeal Process - option to challenge an unsuccessful verification
- 14. Public Record Page - verified record is published
- 15. Certificate Issuance - official recognition document generated
- 16. Leaderboards & History - the record is tracked and ranked publicly

10. Feature: Record Battles

Path: /record-battles -- "Active challenges where a defending record holder faces a scheduled attempt to unseat them." Pairs the current title holder against a named challenger with a fixed attempt date, turning verification into head-to-head competition.

Active battles at time of review

- Largest Human Formation of a Peace Dove -- holder: Rotary Club of Bengaluru Indiranagar; challenger: Arjun Malhotra; date: Oct 18, 2026
- Largest Club Fundraising Gala (Single Night) -- holder: Rotary Club of Sydney Cove; challenger: Isla Campbell; date: Nov 14, 2026

Each battle renders as a card: photo, record title, holder, challenger, and scheduled date.

11. Feature: Adjudicators / Become an Adjudicator

Path: /adjudicators/apply -- application pathway to become a certified verifier.

Eligibility & process

- Open to Rotary members and qualified non-Rotarian professionals
- 3-stage certification: Training -> Assessment -> Approval

Application form fields

- Full Name
- Email address
- Phone number
- Country (dropdown)
- City
- Rotary membership status (checkbox)
- Rotary Club affiliation (dropdown, if applicable)
- District assignment (dropdown, if applicable)
- Languages spoken
- Availability
- Relevant professional experience

Conflict-of-interest declaration

Applicants must acknowledge they cannot adjudicate their own attempts, a family member's attempt, an event they organised, or any situation with financial involvement -- and must commit to immediately disclosing conflicts if assigned to a compromised attempt.

12. Feature: Record Passport, Certificates & Awards

Record Passport (/passport)

A shareable digital credential / permanent achievement profile per record holder. Consolidates a person's verified records into one page.

- Verified achievement documentation (permanent record of validated accomplishments)
- Badge system for earned recognitions
- Certificates listed against the profile
- Shareable profile (each holder gets a unique passport URL)

Certificates (/certificates) and Awards (/awards)

Linked from the footer's Discover column; certificates are the official recognition document generated at the end of the verification flow (see Platform Flow, step 15), while Awards is a separate recognition/showcase section. Both are part of the "permanent record" promise the platform is built around.

13. Feature: Record Wall & Presentation Mode

Record Wall (/record-wall)

A public display/showcase of verified records -- the community-facing wall of achievements.

Presentation Mode (/presentation)

A dedicated display mode, implied for use at ceremonies, club meetings, or events to showcase records/certificates on a screen -- separate from the normal browsing UI.

14. Feature: Gamification & Community Elements

- Points-based ranking system feeding the Leaderboards
- Record Battles as a competitive/gamified layer over plain verification
- Community volunteer tracking (implied by Community-category records)
- Environmental- and wellness-themed record categories (tree-planting, beach clean-ups, corporate step challenges)

15. Organisation (About page)

Path: /about. RBWR positions itself as extending beyond Rotary's traditional service mission into a broader, inclusive verification platform for corporations, schools, and independent record-breakers -- while keeping Rotary's century-long service heritage as its credibility anchor.

Stated operational mechanisms

- Certified adjudicators review every submission
- An "immutable evidence system" tracks documentation
- An independent verification board ensures legitimacy

Stated reach

Operations described as spanning 84 countries, covering Rotary clubs, districts, and independent applicants.

16. Consolidated Feature List (quick reference)

Record lifecycle

- Break a Record (5-step application)
- Create a Record (6-step proposal, with duplicate validation)
- RBWR internal review + guidelines issuance
- Attempt scheduling + adjudicator assignment
- Live attempt supervision
- Evidence vault / documentation collection
- Adjudication report + verification review
- Appeal process for disputed outcomes
- Public record page + certificate issuance

Discovery

- Explore Records catalog with filters and status badges
- 10 record categories (World, Rotary, Club, District, City, Rotarian, Battle, Community, Corporate, Educational)
- Featured Records carousel
- Record Wall public showcase
- Structured record ID scheme (country-region-city-year-sequence)

Live & competitive

- Live Attempts tracker (Live Now / Upcoming / Completed)
- Record Battles (holder vs. challenger, scheduled date)
- Global Leaderboards (Individuals, Clubs, Districts, Cities, Countries, Categories) with points + verified-record counts

Verification workforce

- Adjudicator application (training -> assessment -> approval)
- Conflict-of-interest declaration & disclosure rules
- 1,250+ certified adjudicators cited
- Per-attempt adjudicator assignment

Recognition & identity

- Record Passport (personal shareable achievement profile)
- Badges
- Certificates
- RBWR Awards
- Presentation Mode for ceremonies/events

Platform-wide

- Sign-in / accounts
- Homepage stats dashboard
- 84-country stated footprint
- Contact page
- About / mission page
